Touch Let's Go

Background

Ndubane TLG Security Services (PTY) Ltd is a division of the TLG Commercial Sourcing Investment Group.

Our primary focus is to provide effective Security solutions through various range of security services for all disciplines listed below:

- Residential Armed Response
- Commercial Safety and Security
- Industrial, Private And Public Interest Security

At Ndubane TLG, we pride ourselves in making it a point that we consider innovation as our unique value proposition that benchmarks itself against the best in the world. It is because of this that we heavily invest in the training and capacity building of our teams both on and off-site.

Goals & Mission

We envision ourselves becoming leaders amongst our competitors of the industry across the Southern African Region through below principles and work ethics:

“

- Team Work
- Job Creation
- Safety and Security
- Technology and Infrastructures
- Enterprise & Skills Development

”

“Batho Pele” remains the heartbeat of the TLG GROUP and because of this, we are intentional about the transfer of skills particularly to those who come from previously disadvantaged backgrounds.

Our Assurance To Quality

Our commitment to quality management is considered an interdisciplinary function encompassing all of the functions and activities within our business. Responsibility for quality and quality management activities are viewed by us as the responsibility of all who work both within and in partnership with our company. To this end, our business processes are formatted and integrated into a comprehensive system in line with this relevant standards. We also make it a point that we assign the most highly trained & experienced personnel in the security cluster. All business processes are managed throughout the business cycle, integrating customer retention and customer relations management processes right up to resource productivity systems.

SKY Surviellance

When Coming To Security, We Really Take It Up A Notch!

Our security enforcement strategy is intergrated with the latest technology gadgets that enables rapid response, and fast "eyes on" to the target area visuals.

THE NEXT LEVEL SECURITY SURVIELLANCE - Our drone fleet is well equipped with the latest and advanced technology, utilising thermal detection for night time operations and high megapixel payloads to capture all finer details, movements and laser tracing on target.

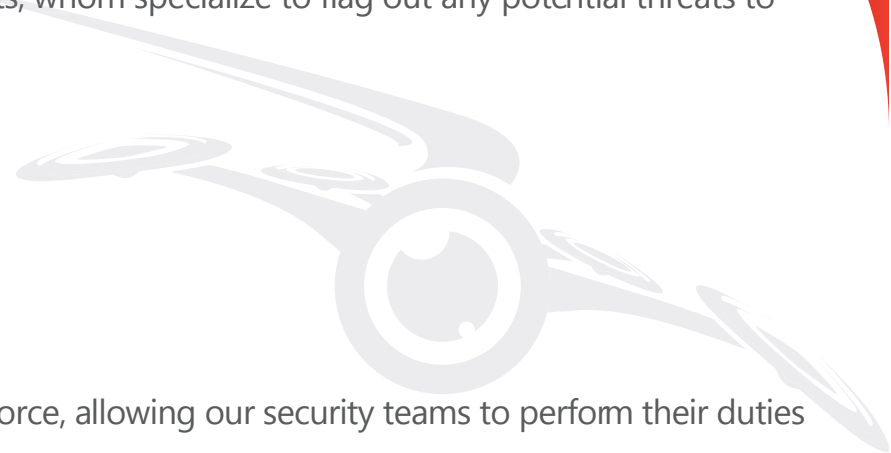

With 4hrs flight time imagery, this gives our ground force advantage to detect and monitor potential threats from a safe distance. Take the next step to your commercial and residential safety with our fully licensed remote pilots, whom specialize to flag out any potential threats to your assets.

The Sky "Bird Eye" Chopper

Tailor made service made available to you for below sectors:

- Industrial Guarding Response
- Commercial Guarding Response
- Residential Guarding Response
- Casual Patrol Response

Both our drone fleet and chopper services are the perfect supplement to the ground force, allowing our security teams to perform their duties more quickly and efficiently on out of reach areas.

Our Footprint, We Serve

We offer our customers security and safety services that protect both people, property and their valuable assets. Our esteemed trained personnel are equipped with the right expertise to carry out designated tasks assigned to them.

The alertness of our armed and tactical response team with the precision to safety is what sets us apart and recommendable. The heart of our organisation is our determination to protect and serve - both the people and valuable assets.

Mining Industry

We base our operational designs on a set of fundamental principles prevalent in all mining operations: Information agents; local, regional and national investigators; industry forum representation; utilization of patrol and corridor horse patrols in remote areas where trespassing can occur; unrest; intelligence databases & product escorting or dogs;

Government/State Owned Entities

The security of government buildings, embassies, president embassies, administrative buildings and others government facilities affect not only the daily operations of the government but also the health, well-being, and safety of employees and the public. From security guards, Baggage, handbag luggage, suitcases and parcel X-ray systems together with full body X-ray solutions, we're at your service.

”

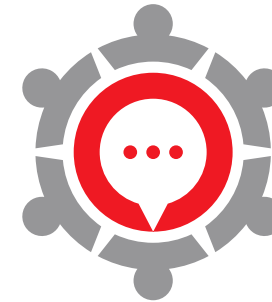

We Protect and Serve!

Clinics and General Security

Not only do these locations care for vulnerable individuals; they also house large quantities of important personal data & products. We mitigate external threats while also dealing with potential risks within their own walls, such examples could be the risk of burglary or natural disasters.

Our company also in addition responds to public order protection services, whether riots, arson, and intimidation against targeted groups or individuals. We also offer security services to residential clients whilst offering tech enabled security such as visitor management, mass notification systems, access control or cloud Based Systems

Schools and Community Center

It is widely known that there's a rapidly growing trend of vandalism , break-ins in the public schools. Although we are not limited to public schools, our company services provides a set of solutions that ensure 24-hour surveillance and/or patrolling is increased for the safety of all stakeholders.

Community facilities can be a home for various incidents in the absence of a proper security. Libraries, Museums, Parks, Community Centers, Entertainment Arenas, etc; are some of the most common examples of community facilities we service.

K9

DOG UNIT

Ndubane TLG Protection Services offers highly trained dog unit with the development to meet the demands of all our prospective clients. All our safety and security dogs are trained on real world scenarios, with explosive performance from our skilled trainers to ensure that our dogs are safely and efficiently deployed when on duty.

Our security dogs have been well prepared and trained to counter various situation such as:

- Handler Operations
- Tactical Security Operations
- VIP and Estate Security Guarding
- Crowd Control Response Techniques

With thorough care, all our dogs are regularly treated by registered veterinary surgeon for all animal diseases and they are well groomed, fed and kenneled in a highly exceptional environment.
